Qualitative

Is there any additional feedback you would like to provide about the instructor (e.g., teaching style, time management, accessibility)? -

- I think the class periods could have been organized a little better. I don't feel like breaking into groups was helpful, as it took too much time and that could have been time we could have used to go more in depth of different topics
- none
- Very organized classes and Mr. Pleites-Hernandez is extremely intelligent, open-minded, helpful, pretty much everything you could want in a teacher.
- Smart and helpful guy
- He was a fantastic professor, and I would recommend him to anyone!
- This teacher was amazing. He was entertaining while also being informative. He always made me fell like I was on an even playing field despite the obvious differences in age and gender and education level. He seems to really love what he is teaching about and is always open to interpretations while answering questions. He is very humble and I would take another class from him again if I ever got the chance.
- The way he did review sessions for exams were the best days in class. I learned more when he made it a challenge game thing.
- I didn't like how the same few students would always talk and try to be the teacher. I like that he tries to involve us but it's annoying when the same know it all kids are interrupting the professor. Not really his fault but he could control it better.
- Expectations were made clear and were easy to follow.
- liked how he taught and the news reports before class
- Everytime I email him he gets back to me in ten minutes and I think that is great for a teacher to do.
- You were great in lecture and helped through any questions.
- he was great
- Great Professor!
- Great teacher, takes his time to help student understand the material. and organizes group discussions to help you think about material.

Is there any additional feedback you would like to provide about the course (e.g., workload, content, technology)? -

- Workload was average, it was enough to help me understand the course material.
- Great Class and Great Professor!
- nope
- Maybe have assigned groups for when we split up, most of the time I felt like we weren't using time correctly and we were just talking off topic. Also more info on Writing Assignments but honestly I was fine with what was there.
- nope everything was good
- n/a
- no
- The workload was very doable, quite fair actually. Not so much that I thought I might drown in it and not so little that I didn't learn anything. Great balance.
- none
